TROPICAL CYCLONE ADVISORY NR. 4

Tropical Storm “PULASAN”

Issued at 11:00 PM, 16 September 2024

Valid for broadcast until the next bulletin at 11:00 AM tomorrow.

GENERAL OUTLOOK FOR THE FORECAST PERIOD

Refer to Weather Advisory No. 23 issued at 11:00 PM today for the heavy rainfall outlook due to the Southwest Monsoon enhanced by PULASAN and Tropical Depression GENER.

Track and Intensity Outlook

- PULASAN is forecast to move generally northwestward at a fast speed and may enter the Philippine Area of Responsibility tomorrow (17 September) evening. On the track forecast, PULASAN will remain far from the Philippine landmass and will likely remain within the PAR region until Wednesday around noon. Outside PAR region, the tropical cyclone will move west northwestward towards the Ryukyu Islands and the East China Sea.
- PULASAN is forecast to remain a tropical storm throughout the forecast period but further intensification into Severe Tropical Storm is not ruled out.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to continue monitoring for updates related to this tropical cyclone.

Unless there is an intermediate issuance, the next tropical cyclone advisory will be issued at 11:00 AM tomorrow.
